

PetCare: PL/SQL in the Frontend

Mapping for `database/06_plsql.sql` functions/procedures and their visible UI workflows.

PL/SQL Object	Frontend Location	Role / Login	What to Click / Show
<code>FN_PERSON_AGE</code>	Smart PetCare Tools → Age Calculator	Admin, Doctor	Enter a person ID such as <code>P001</code> and click Calculate Age. Invalid IDs show <code>NO_DATA_FOUND</code> .
<code>FN_AVAILABLE_PET_COUNT</code>	Smart PetCare Tools → Age Calculator result	Admin, Doctor	The same Calculate Age button also returns Available Pets.
<code>PR_CURSOR_PET_SUMMARY</code>	Smart PetCare Tools → Pet Availability Summary	Admin, Doctor	Click Generate Summary to show total registered pets and available local pets.
<code>PR_FIND_PERSON</code>	Smart PetCare Tools → Person Lookup	Admin, Doctor	Enter <code>P999</code> and click Search Person to demonstrate handled <code>NO_DATA_FOUND</code> .
<code>PR_SUBMIT_ADOPTION</code>	My Adoption Applications	Adopter	Select an available pet and submit an application. The procedure creates a pending adoption request.
<code>PR_REVIEW_ADOPTION</code>	Adoption Review	Supervisor	Approve and assign an employee, or reject a pending adoption application.
<code>PR_MARK_ADOPTED</code>	My Assigned Adoptions	Employee	Finalize an approved assigned adoption. The pet becomes adopted.
<code>PR_OWNER_DIRECTORY</code>	Pet Owners	Admin, Supervisor, Employee	Search by exact owner ID, name, or phone. No match returns the handled message No records available.
<code>PR_CREATE_PERSON</code>	No direct frontend button in the current UI	Database/demo script only	Used as a PL/SQL insert example with duplicate-key exception handling. The app creates people through API transactions instead.

Where Is Smart PetCare Tools?

Admin login: Sidebar → Developer Tools → Smart PetCare Tools.

Doctor login: Sidebar → Clinical Tools → Smart PetCare Tools.

Supervisor: the current frontend sidebar does not show Smart PetCare Tools for Supervisor. Use Admin or Doctor for the PL/SQL demo page.

Best Viva Demo Order

Start with Admin login → Smart PetCare Tools. Show Age Calculator, then Pet Availability Summary, then Person Lookup with `P999`. After that, show the adoption workflow procedures

through Adopter, Supervisor, and Employee pages.
